

## **Conflict Transformation in Afghanistan and Pakistan: The Role of Europe and Canada – Help Wanted?**

The North-South Institute and Friedrich Ebert Stiftung Canada invite you to a public event on the role of NATO allies such as Canada and Germany in the aftermath of the recent United States policy review.

The discussion will address the growing recognition that democratic institution building, stability and prosperity in Afghanistan cannot be successful without a regional approach. More effective engagement with Afghanistan's neighbours – particularly Pakistan – is seen by some experts as crucial to reducing the current instability.
